

# GOLDEN VALLEY TREE PARK

## Tree Sponsorship Conditions

1. Sponsorship of established trees at Golden Valley Tree Park is encouraged as a way of contributing personally to the enhancement and ongoing management of the Park.
2. The sponsorship price depends on the age, rarity, location and the costs of establishing and ongoing maintenance of the tree throughout its life. Prices are included on the "Trees available for Sponsorship" list. Special trees may also be offered at a premium price.
3. The name (only) chosen by the sponsor will be engraved on a plaque and placed on a wooden post next to the tree, below the tree's identification plaque. Replacement of plaques can be organized by contacting GVTP (installing own posts and attaching own plaques is not permitted).
4. The trees available at a given time are to be found on the list of "Trees available for Sponsorship", issued by GVTP Inc. and updated from time to time. These trees show good prospects for long term survival.
5. Each tree Sponsorship allocated is for the life of the tree. Whilst we endeavour to provide healthy, well-established trees for sponsorship, we cannot guarantee the life span of any tree allocated for sponsorship in the Park.
6. If a healthy tree is deliberately removed for management reasons, then a new tree can be allocated by the management committee on request by the sponsor. Attempt will be made to notify the sponsor of any such removal well in advance unless there is an issue of public safety.
7. Later dedication of the one tree to more than one person is accepted where all existing sponsors demonstrate agreement, or where such agreement might be reasonably inferred in the case of deceased family members or friends. In such cases 50% discount of the current price shall apply to subsequent sponsorships.
8. Trees may also be dedicated to a family or group on a single plaque at the outset.
9. GVTP is not intended as a memorial park. Special arrangements can be made with the park management to assist our sponsors in honouring their loved ones. Placement of human ashes and any mementos is not allowed.
10. The GVTP Inc. committee may at its discretion make special agreements regarding tree sponsorship where these would be of greater benefit to the Park than is normally the case.
11. Sponsors should also note that although arrangements are made in good faith, the management requirements will change from time to time, and guidelines may be changed by the GVTP management committee to reflect conditions at that time. Sponsorships can only be offered on this basis.
12. Sponsors should be aware of the above conditions.
